Date: July 5, 2017

CSE- PDT

PDIC will begin the process of updating its ISO procedures

Mr. Erik Siegmund, CEO of the Company and President of (PDIC), stated, "With the update of ISO 13485 to the 2016 revision, now is the proper time to update our key procedures to reflect these new standards. This international standard upgrade for medical device quality management systems helps to continue our commitment to consistently meet customer needs both in our projected commercialization goals, and also future international markets. We have shortlisted experienced candidates to oversee this initiative and expect to present the project lead for this shortly."

Under the leadership of Erik Siegmund as President of a prior company intimately involved with the R&D of earlier stages of the EAS components, that private Company received it's ISO13485:2003 certification and he is aware of the processes involved in achieving this internationally regarded standard.

About PDT

Preferred Dental technologies Inc. (PDT) has been established to advance development and commercialization of various evolutionary and disruptive technologies in the dental implant industry. PDT's first entry into this market is the successful acquisition of Preferred Dental Implant Corp (PDIC) which will operate as a wholly owned subsidiary of PDT. PDIC is the developer and innovator of the EAS series that provides a solution for custom dental abutments for dental implants. Designed by an experienced dental lab technician, the EAS supplies a solution not currently available by any other dental implant Company.
